Experience

Entrepreneur, 2 years

As a business owner I've learned to:

- Think strategically about time management
- Understand and organize time, money and skills as assets
- Utilize assets in active pursuit of **well defined** short, and long term goals
- Have systems of organization in place that allow me to make decisions quickly and effectively

Responsibilities include all aspects of my business's operations:

- Marketing
- Scheduling
- Brand strategy
- Production
- Web-design
- Social media presence
- Billing and accounting

Employee, 11 years

As an employee I have learned:

- To always maintain a polite and professional demeanor especially under difficult circumstances
- To communicate and coordinate with others as part of a single effort
- To make decisions and take action based upon an external set values and expectations
- Understand, value and strive for success in many different contexts and real-world settings
- Work well with, and for many people of diverse backgrounds and dispositions

I have experience in a myriad of positions including:

- Webdesign
- Clerical and administrative work
- Food-service and retail
- Horticultural work, road work, and construction
